PLEASE SEE RISK FACTORS ON FORM 10-Q AND FORM 10-K FILED WITH THE SEC

This presentation, with prepared remarks, includes forward-looking statements regarding Brocade's financial results, goals, plans, assumptions, strategy and business outlook, revenue, tax rate, cash, stock buybacks, OEM inventory, prospects, as well as U.S. Federal spending and order flow, and IT spending, which are only predictions and involve risks and uncertainties such that actual results may vary significantly. These and other risks are set forth in more detail in our Form 10-K for the fiscal year ended October 26, 2013 and our Form 10-Q for the fiscal quarter ended August 2, 2014. These forward-looking statements reflect beliefs, assumptions, outlook, estimates, and predictions as of today, and Brocade expressly assumes no obligation to update any such forward-looking statements whether as the result of new developments or otherwise.

In addition, this presentation includes various third-party estimates regarding market share and other measures, which do not necessarily reflect the views of Brocade. Further, Brocade does not guarantee the accuracy or reliability of any such information or forecast.

Certain financial information is presented on a non-GAAP basis. Management believes that non-GAAP financial measures used in this presentation allow stakeholders to gain a better understanding of Brocade's comparative operating performance both from period to period, and to its competitors' operating results. Management also believes these non-GAAP financial measures help indicate Brocade's baseline performance before gains, losses or charges that are considered by management to be outside of ongoing operating results. Accordingly, management uses these non-GAAP financial measures for planning and forecasting of future periods and in making decisions regarding operations performance and the allocation of resources. The most directly comparable GAAP information and a reconciliation between the non-GAAP and GAAP figures are provided in the accompanying press release, which has been furnished to the SEC on Form 8-K and posted on Brocade's website, and is included in the appendix in this presentation.

Brocade & The New IP

Brocade Key Facts

Company Overview

- Founded in 1995
- Headquarters in San Jose, California
- 4,550 employees in 36 countries
- Customers in over 160 countries
- \$2+ billion in annual revenue
- NASDAQ: BRCD

The New IP

The Foundation for the Digital Business

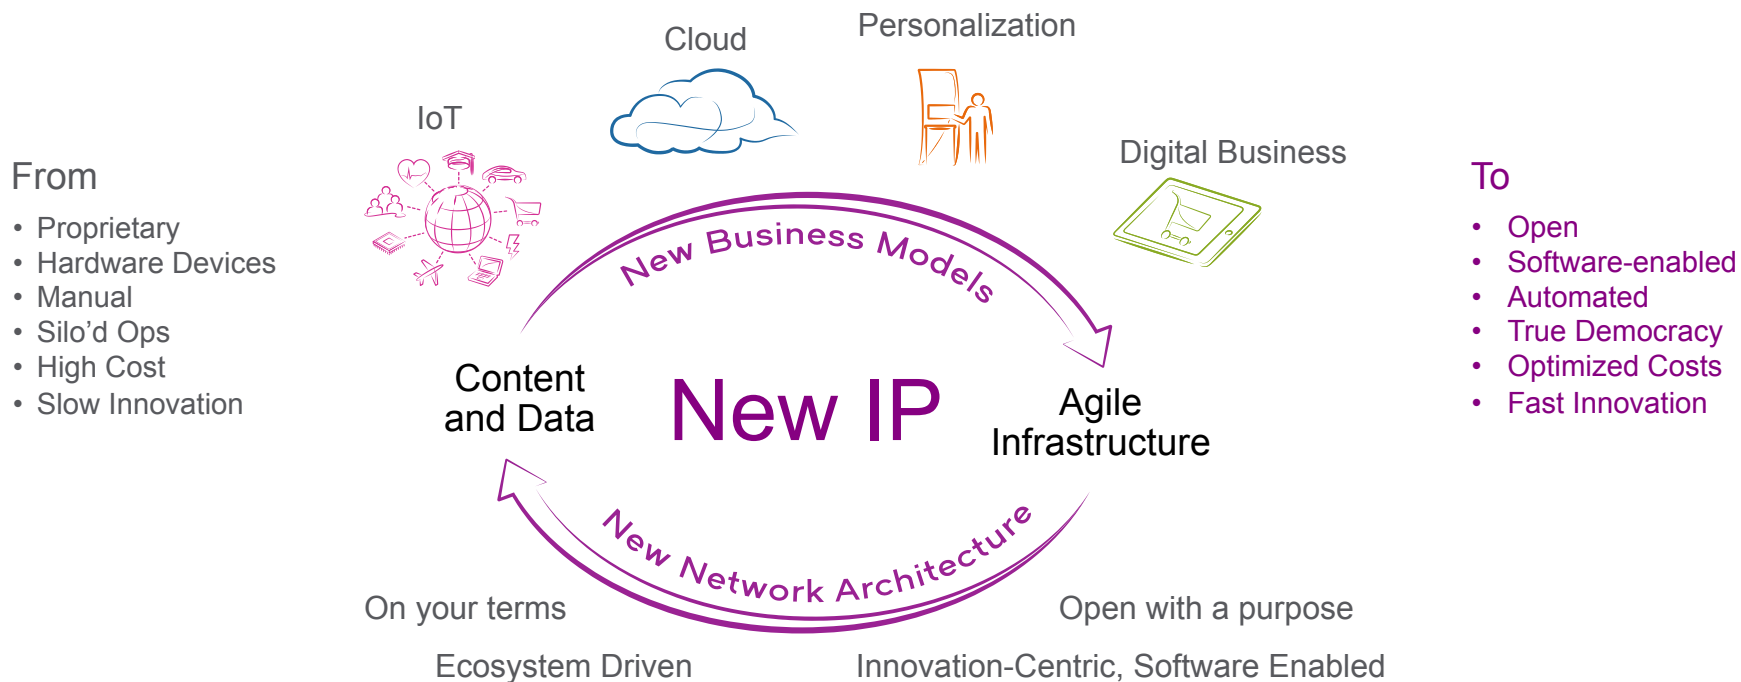

1/3rd of the world's population is connected to the internet

Can your Old IP handle a New IP world?

Our industry runs on 20 year innovation cycles, and we are on the forefront of the next wave, now is the time to embrace the new IP in order to improve business agility

The New IP Accelerates Service Delivery, Data Access, and Innovation

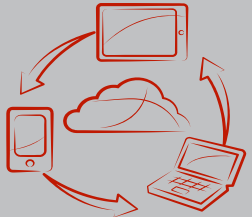

Brocade Campus Approach

Brocade Campus Networking Strategic Focus Areas

HyperEdge Architecture evolution

Problem:
Demand for more wireless, video, VoIP, and other services

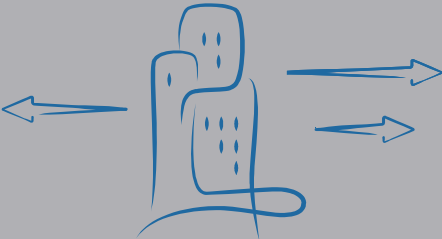

SCALABLE

Solution:
SCALE-OUT NETWORKING
AS THE NETWORK GROWS

ICX 7250 – Expands ICX 7xxx family
Switch Port Extender

Problem:
Future-proof network.
It needs to last.

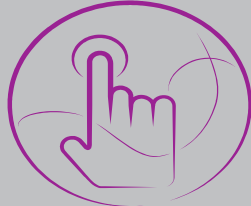

OPEN

Solution:
OPEN MULTIVENDOR
SOFTWARE NETWORKING

OpenFlow 1.3 on ICX 7750/7450

Problem:
Complex management

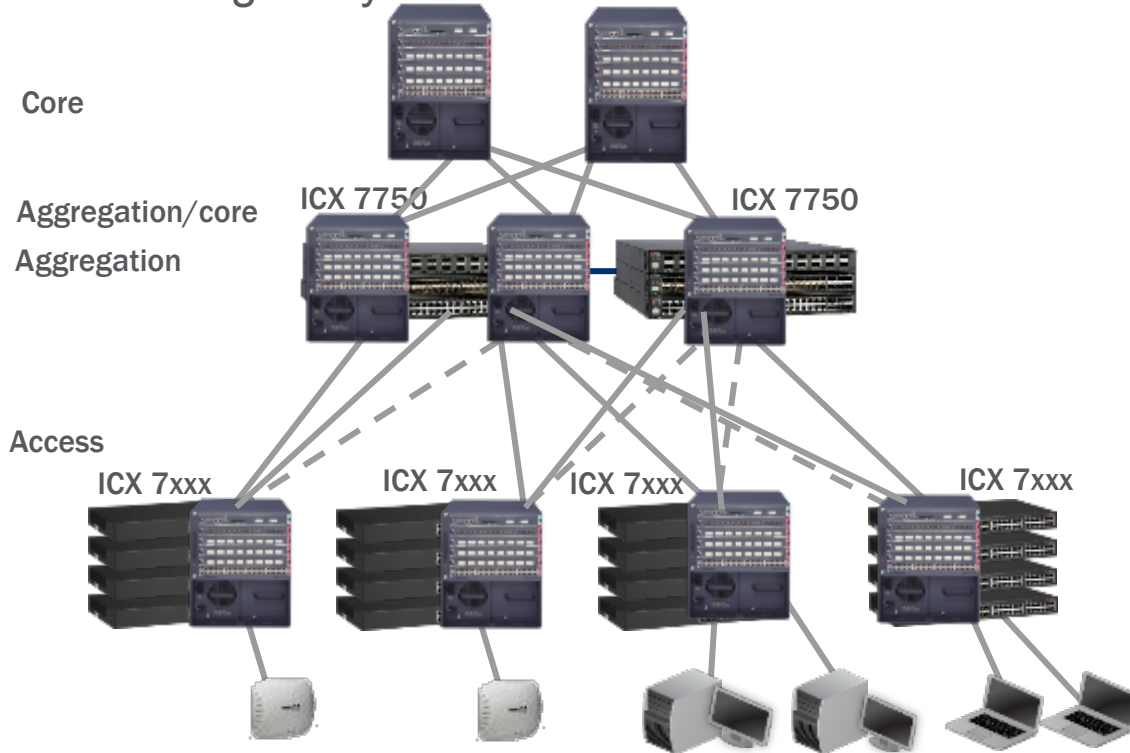

AUTOMATED

Solution:
COLLAPSED NETWORK LAYER
DEPLOYMENT OPTIONS

Distributed Chassis
with Switch Port Extender

Campus Fabric

Moving away from monolithic chassis to distributed chassis

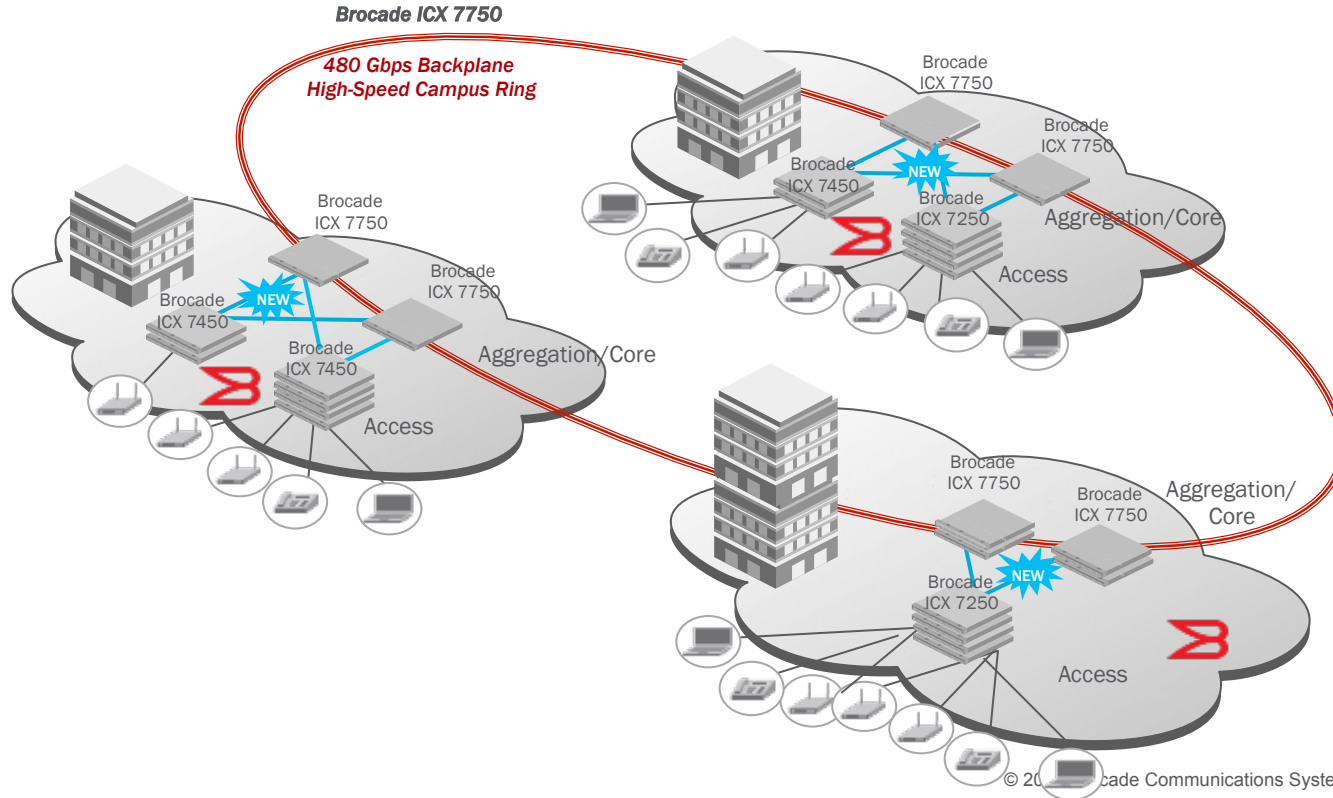

Solution

- Scale-out, “pay as you grow” networking
- Flexible network topology
- 75% lower network operation cost
- Fewer management touch-points
- Multivendor and SDN interoperability

Campus Fabric Solution

Brocade Distributed Chassis with Switch Port Extender

Benefits

- **Simpler:** Collapsed access/agg/core layer
- **Automated:** Single point of management across network layers
- **Lower cost:** A fraction of the cost of traditional chassis deployments
- **Highly scalable:** Add switches where and when capacity is needed
- **MACSec enabled**
- **EEE enabled**

Brocade ICX Switch Advantages For Wireless

- Flexibility & Scalability
 - Stacking to 12 switches
- Switch upgradability
 - Ports-On-Demand: 1G to 10G
 - 1G/10G/40G modules for ICX 7450
- Power-over-Ethernet
 - Full PoE with one power supply
 - PoE+ on all ports
- Line-rate performance – no over-subscription from too many AP's
- Simplified management with Campus Fabric (Switch Port Extender)
- SDN/OpenFlow

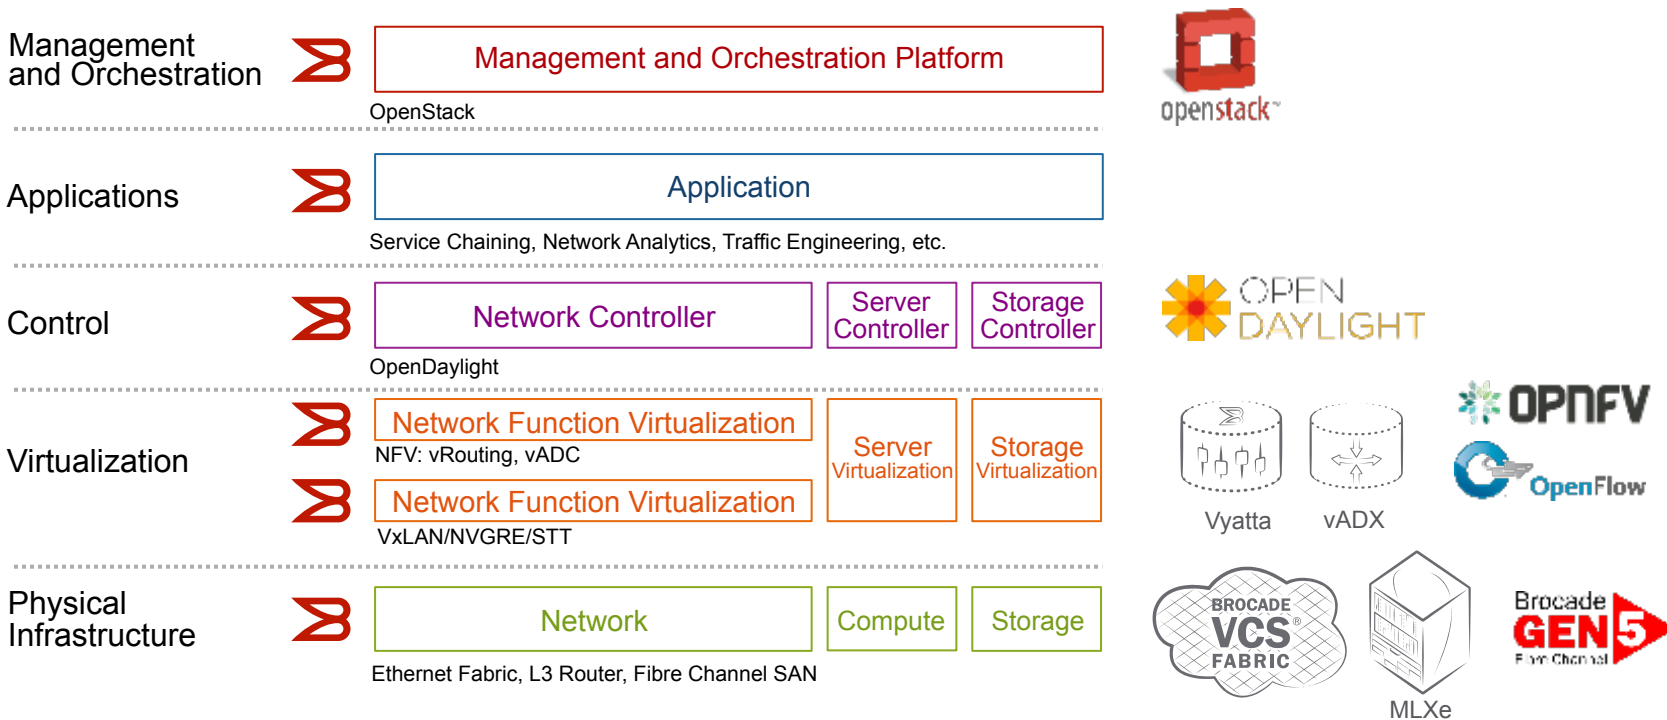

PoE

Brocade Data Center Approach

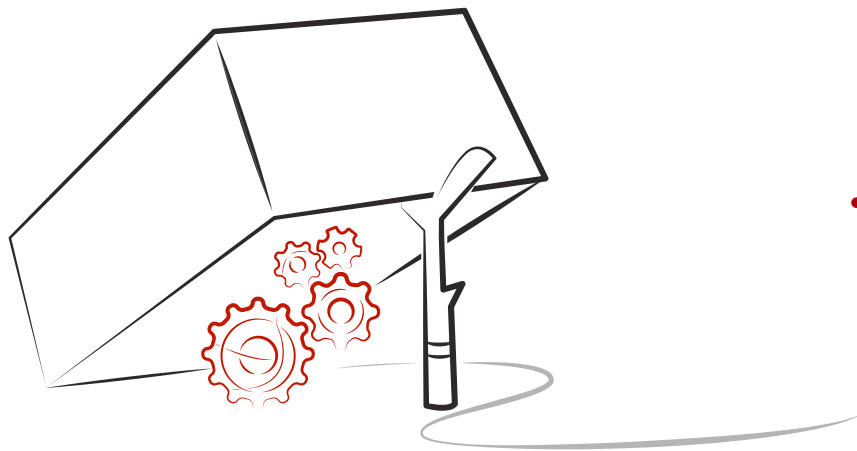

Data Center of the Future

Brocade Strategy: Optimized to Lead the Transformation

Open Is the New Vendor Lock-In...

.....Brocade is Open with a Purpose

Proprietary Tech

- Every vendor is claiming to be open, but buyer beware:
 - Our competitors are open... as long as you use their hardware or software
- We are re-defining open to mean that all layers of networking services – from hardware, to control, to orchestration – are interoperable and interchangeable and can be influenced through a standard interface
- We are Open with a purpose
 - Our vRouter can run on raw intel-based hardware or in any vendors' hypervisor or both...even on the same box
 - Our ODL controller will even control our competitor's hardware

Brocade Metro Approach

Brocade Routing Focus

Core Routing
*Core, Border
DC Interconnect
Metro*

Software-Defined
*OpenFlow 1.3
SDN Apps
OpenStack*

Data Privacy
*Embedded
Wire-speed
Encryption (L2 & L3)*

Network Visibility
*Embedded monitoring
Filter, replicate
Statistical, real-time*

Extensible Platform
SCALABLE: 10G/40G/100G; v4/v6/MPLS/SDN
PROGRAMMABLE: Brocade VersaScale™ Processor

Brocade Routing Portfolio

NetIron Portfolio for SP, Data Center, and Enterprise applications

Brocade MLX Series Cloud-Scale Router

- Multi-purpose core router for SP, DC, enterprise backbone
- 15.36 Tbps scale
- Upto 1536 1GbE, 768 10GbE, 128 40GbE and 64 100G ports
- Full IPv4/IPv6, MPLS
- Highly programmable engine
- Advanced, scalable OpenFlow
- Wire-rate data encryption

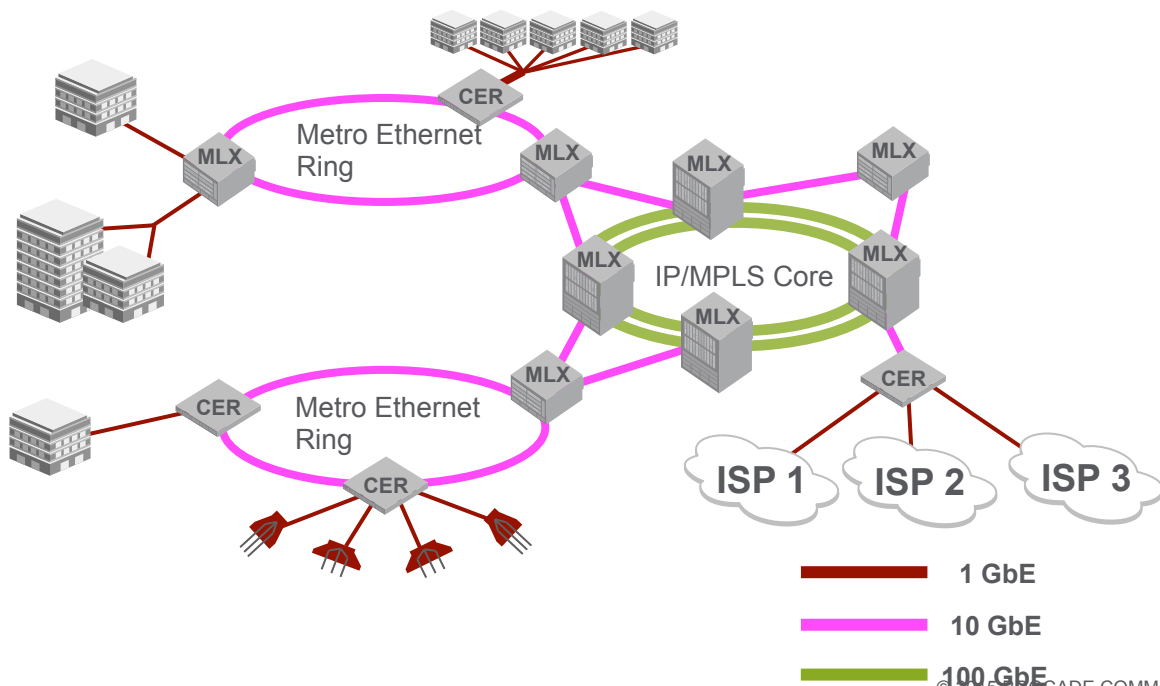

Brocade CER/CES Compact Aggregation Router

- Aggregation router/switch
- Metro/enterprise WAN edge
- Same software as MLX
- 24 1GbE ports with 4 10GbE uplinks
- Full IPv4/v6, MPLS
- OpenFlow

Multiservice Metro Ethernet IP/MPLS Network

Leverage Netron Family to deliver WAN services to end-users

Service Provider

IP Edge Router
MPLS Edge Router
Compact Internet Peering Router

Data Center

Compact Border Router

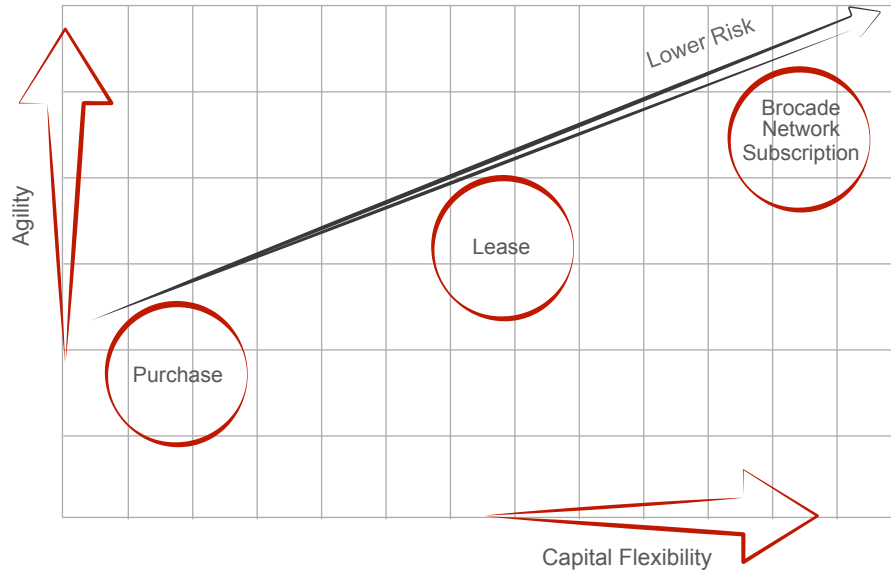

Enterprise

Multi-zone Enterprise Router
Compact Enterprise Border Router

Brocade Network Subscription

Never Buy Another New Network Again... Ever

Pay as you go... and as you grow

- De-risk this transition by paying as you go, without any capital expenditures
- Brocade network subscription (BNS) is an acquisition model offering cloud-like agility
 - Enables organizations to expand or contract their IT resources on-demand
 - Provides complete flexibility for upgrades to protect against technology obsolescence

- Order and Pay For What You Need, When You Need It!

Thank you
